

THE CITY OF ASPEN

CITY OF ASPEN BUILDING DEPARTMENT

**CONDITIONS OF DEMOLITION**

**Please review and check all the items that apply to this demolition:**

- ? Jobsite shall be maintained in a safe manner with adequate barricades and signage to protect the general public. Excavations shall be properly protected.
- ? All utilities shall be disconnected per requirements of individual utility companies. Contact City of Aspen Water, City of Aspen Electric or Holy Cross Electric, KN Energy, Cable TV, and U.S. West, prior to commencing demolition.
- ? All demolition equipment, dumpsters, and trucks must remain on private property at all times. An Encroachment License from the City Engineering Department is required for occupancy of a public right-of-way.
- ? Vehicles are not allowed to track mud or debris on public streets.
- ? All fugitive or loose dust and debris must be controlled and not allowed to blow on public streets or adjacent properties.
- ? Complete the City of Aspen Asbestos Checklist.
- ? The haul route of demolition materials shall be the most direct route to the Highway 82. Follow Highway 82 out of town.
- ? Haul trucks shall be covered with tarps or other protective coverings to prevent material from falling off or blowing out of the trucks.
- ? Please call Chris Hoffnagle at 920-5215 or 923-3487 to coordinate recycle materials which can be separated and hauled to the Pitkin County Landfill as part of our resource recovery program.
- ? Removal of any trees or bushes from a city site must have prior approval from the City of Aspen Parks Department at 920-5120.
- ? Contact City of Aspen Historical Preservation Officer at 920-5090 regarding demolition of any garages or sheds.
